EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Benjamin Urcia on June 15, 2004.

Specifically, claim 3 will be amended to correct a typographical error between the originally filed claim of January 24, 2001 and the amended claim of February 9, 2004. (line 1 of the amended claim of February 9, 2004 reads "the method according to claim 1," and should read --the method according to claim 1 or 2,--.

The amended claim follows:

3. (Currently amended) The method according to claim 1 or 2, wherein the step (b) further comprises the step of:

separating the optical signal and the ASE noise from the linearly polarized optical signal by allowing the linearly polarized optical signal including the unpolarized ASE noise to pass through a rotating linear polarizer.

Allowable Subject Matter

2. **Claims 1-5** are allowed.

3. The following is an examiner's statement of reasons for allowance:

Art Unit: 2877

As to **claim 1**, the prior art of record, taken alone or in combination, fails to disclose or render obvious in a method of monitoring an optical signal-to-noise ratio using a polarization-nulling method the particular steps a1-a3, in combination with the rest of the limitations of **claims 1-3**.

As to **claim 4**, the prior art of record, taken alone or in combination, fails to disclose or render obvious in an apparatus for monitoring an OSNR using a polarization-nulling method the particular rotating quarter-wave plate means, rotating linear polarizer means and measuring means, in combination with the rest of the limitations of **claims 4-5**.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Response to Arguments

4. Applicant's arguments, see pages 5-7 of Remarks, filed February 9, 2004, with respect to the rejection of **claims 1-5** under 35 U.S.C. 103(a) have been fully considered and are persuasive. Due to the persuasiveness of the arguments and the subsequent amending of the claims, the rejection under 35 U.S.C. 103(a) of **claims 1-5** has been withdrawn.

Fax/Telephone Numbers

If the applicant wishes to send a fax dealing with either a proposed amendment or a discussion with a phone interview, then the fax should:

1) Contain either a statement "DRAFT" or "PROPOSED AMENDMENT" on the fax cover sheet; and

Art Unit: 2877
